If the Officer finds that damage or loss has occurred and estimates the damage or loss to be less than Fifty Dollars (\$50.00) he shall submit a report to the Board of Selectman stating the parties involved, the damage or loss, and the amount of the estimate. If the Officer's estimate exceeds Fifty dollars (\$50.00) he shall have the damage or loss, appraised on oath, by three (3) persons.

One (1) person shall be appointed by the Animal Control Officer, one (1) by the person alleged to be damaged, and one (1) by the Board of Selectman. Said appraiser shall act as outlined in M.G.L., Chapter 140, Section 161. A final appraisal shall be submitted to the Board of Selectman within thirty (30) days. The Board may authorize payment or, for reason of insufficient information, seek an independent investigation. If payment is authorized the Board shall issue an order upon the Town Treasurer for any amount they decide in their reasonable discretion to be just. The Board shall notify all interested parties of their decision. The appraisers shall receive payment from the Town in a manner authorized by M.G.L., Chapter 140, Section 161. All funds expended under this Section shall come from the Dog Fund.

The Selectmen may appoint a temporary investigator in any case that the Board believes, in its reasonable discretion, requires further investigation. If said investigator believes that the evidence is sufficient to sustain an action against the owner or keeper of a dog, the investigator shall recommend to the Board of Selectmen that said action be brought. The Selectmen may recommend that the action be brought in the name of the person alleged to have suffered the damage or loss, in the name of the Town of Billerica, or both. The owner or keeper may, prior to any action being brought, pay a settlement to the person alleged to have suffered the damage or loss in an amount that said person deems reasonable. If any dog is found to have worried, maimed, or killed any livestock or fowl, or caused any damage or loss for which their owner would be entitled to compensation from the Dog Fund under this By-Law, the Selectmen shall serve notice upon the owner of the dog directing him to kill or confine said dog within twenty-four (24) hours. Said action shall be taken only after notices given to all interested parties and a public hearing is held to determine who the owner is. If such notice has been given and the owner or keeper fails to either kill or confine said dog within the twenty-four (24) hour period, said owner shall be punished as provided for in M.G.L., Chapter 140, Section 164. Any Police Officer or Animal Control Officer may tranquilize or kill such dog or remove and dispose of such dog in a humane manner if it is found outside the enclosure of the owner or keeper and not under their immediate care.

The Board of Selectmen, or their agents thereto authorized in writing, may, after written notice to the owner or keeper, enter upon the premises of the owner or keeper of any dog known to them to have worried or killed live stock or fowls, and then and there kill such dog, unless such owner or keeper whose premises are thus entered for the said purpose shall give a bond, with sufficient sureties, approved by the Board of Selectmen as set forth in Section 3.2 of this By-Law.

The Town and the Town's agents, servants, employees and/or elected officials obligations and liability hereunder shall be limited to one hundred dollars (\$100.00) per

animal, and five hundred dollars (\$500.00) per residence, per fiscal year. This shall not limit the town's remedies and rights to seek compensation in excess of said amount, pursuant to this By-Law. The owner or keeper of a dog which has done damage to live stock and fowls shall be liable in tort to the town for all damages so done in which the town has been requested to pay as provided by MGL. Chapter 140 or by this By-Law. Such action may be brought by the Board of Selectmen, or by a temporary investigator as authorized in this By-Law.

2.17. Dog Fund

There shall be a Dog Fund established by the Town under the provisions of M.G.L, Chapter 44, Section 53E which shall be used to make purchases necessary to administer this By-Law and to pay any expenses relating to this By-Law. Said fund shall be administered by the Town Accountant and may receive funds from usual municipal financing methods and from any fees or fine collected under this By-Law. The Board of Selectmen determine a maximum amount that shall stay in said fund, with all additional funds being turned into the General Fund.

The Board of Selectmen may determine certain salaries or expenses that may not be funded with this fund but must be appropriated through the usual municipal financing procedure, and such determination shall be binding on this administration of this fund by the Town Accountant.

ARTICLE XX

CONSTRUCTION EMPLOYMENT

DEFINITIONS

1. PURPOSE

There is a need to ensure that Billerica residents receive the maximum benefits from the economy of the Town specifically regarding the economic benefit to construction employees in the construction of any public building or public works projects. Therefore, it is appropriate for the Town to make certain that the construction of any public building or public works project (hereinafter called “construction project”) ensures that a substantial percentage of construction and employees include Billerica residents through compliance with this Billerica Residents Construction Employment By-Law.

2. POLICY

On any construction project (funded in whole or in part by Town funds, or funds which, in accordance with a federal grant or otherwise, the Town expends or administers, or which the Town is a signatory to the construction contract) the developer, contractor or subcontractor shall comply with the following requirements:

- (a.) A minimum of twenty-five (25%) percent of the total construction employees work hours in each craft shall be completed by Billerica residents.
- (b) All developers, contractors and subcontractors shall agree that any apprentices hired shall be apprentices indentured to a bona fide apprenticeship program, approved by the Commonwealth of Massachusetts.
- (c) This policy shall be in effect and enforceable when the Commonwealth of Massachusetts’ rate of unemployment is at a level of six percent (6%), or higher, on the date of execution of said contract, as determined by the Commonwealth of Massachusetts Division of Employment and Training, Research Bureau, as published by said agency monthly.

3. COMPLIANCE

The Town Manager’s Office, acting through the Building Inspector, shall be responsible for enforcing compliance with provisions of this By-Law. Upon issuance of a building permit, the developer shall submit to the Planning Board and/or Building Inspector, the following:

- (a) Scope of construction
- (b) Construction time schedules
- (c) Projected number of employees and hours, related to construction
- (d) Types of trades to be hired; and
- (e) Names, addresses and principals of contractors and subcontractors being hired.

Upon request, all developers shall submit weekly workforce reports listing the following:

- (a) Name of employees

- (c) Proof or verification of residence
- (d) Craft of each employee
- (e) Job category of each employee
- (f) Hours worked of each employee
- (g) Hourly wage of each employee, and
- (h) Company for which each employee is employed

The Billerica Residents Employment Monitoring Committee and/or Special Projects Coordinator shall review all information submitted, and shall make certain that such requirements are complied with. If such requirements are not complied with, the enforcement procedures of Section 5 shall be implemented.

The sole exception to the implementation of such enforcement procedures is the determination and approval of the Committee, as defined in Section 4, that compliance cannot be obtained because of high local construction employment levels of Billerica residents, and that therefore, a waiver from compliance should be allowed.

5. COMPLIANCE WAIVER

In the event of high local construction employment levels of qualified Billerica residents, and documented inability of developers, contractors and subcontractors to hire Billerica employees because of such high local construction employment levels, compliance with the provisions of this By-Law may be waived, in whole or in part, on a case by case basis, through a determination made by the Billerica Residents Committee, as defined in Section 3, that high local employment levels prohibit the developer, contractors and subcontractors from hiring Billerica employees as required. Such documentation shall include evidence of efforts conducted by the developer, contractor and subcontractor which shows a high level of effort in attempting to obtain Billerica employees. Such effort shall include local advertising to seek Billerica employees, and solicitations of local companies for contracting purposes.

The Billerica Conservation Commission shall have jurisdiction to regulate all proposed activities and alterations within a wetlands resources area protected by this by-law and within 100 feet from all such resources area, provided, however, that there shall be no 100-foot buffer zone to a riverfront area wetlands resource area. In addition, the Commission shall have jurisdiction to regulate those activities and alterations outside the 100-foot buffer zone if such activities have altered a wetland resource area or the area within the 100-foot buffer zone from a wetlands resource area. The Commission shall regulate such activities so as to protect the wetlands resource area values.
 - (1) A “wetlands resource area protected by this by-law” is: any freshwater wetlands; marshes; wet meadows; bogs; swamps; vernal pools; banks; reservoirs; lakes; ponds; rivers; streams; creeks; beaches; lands under water bodies; and lands subject to flooding or inundation by groundwater or surface water. Said wetlands resource areas are defined in Section 5 and shall be protected whether or not the wetlands resource areas border surface waters.
 - (2) The “resource area values protected by this by-law” shall include, without limitation, the following: public or private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, water pollution control, fisheries, shell fisheries, wildlife, wildlife habitat, rare species habitat including rare plant species, agriculture, aquaculture and recreation values deemed important to the community.

- B. No person shall commence to remove, fill, dredge, build upon, degrade, discharge into, or otherwise alter, as that term is defined in Section 4 of this by-law, a wetlands resource area protected by this by-law or an area within 100 feet from such resource area, **excepted as noted in Section 5.2**, without receiving and complying with a by-law wetlands permit issued by the Commission; provided, further, that all appeal periods have elapsed.

(Amended: Art. 35; AFTM 10-4-2011)

- C. Any person desiring to know whether a proposed activity or an area is subject to this by-law may request a determination of applicability or a resource delineation confirmation from the Commission in writing.

2.2 Enforcement

- A. No person shall alter or cause, suffer, or allow any activity or alteration of any wetlands resource area or its buffer zone protected by this by-law; or leave in place unauthorized fill in a wetlands resource area or its buffer zone protected by this by-law; or otherwise fail to restore to its original condition an illegally altered wetlands resource area or its buffer zone protected by this by-law.
- B. No person shall fail to comply with a wetlands permit or an enforcement order issued by the Commission pursuant to this by-law.
- C. The Commission shall have authority to enforce this by-law, the regulations authorized by the by-law, and by-law permits by violation notices, enforcement orders, and civil and criminal court actions, as appropriate. Members of the Commission and the Agent of the Commission are empowered to act as “enforcing persons” under these provisions.
- D. The Commission may order any person who alters a wetland resource area or buffer zone in violation of the provisions of this by-law and the regulations promulgated thereunder to restore the land and wetlands resource area to its original condition and take other action deemed necessary to remedy such violations.
- E. Municipal boards and officers, including any police office or other officer having police powers, shall have authority to assist the Commission in enforcement and as further provided in Article VI, Section 6, of the General By-Laws.

3. EXEMPTION AND EXCEPTIONS

3.1 Normal Maintenance or Improvement of Land in Agricultural Use. The application and permit required by this by-law shall not be required for work performed for normal maintenance or improvement of land in agricultural use as defined by the Act. Provided, however, nothing contained within this provision shall prohibit the Commission from exercising its full enforcement powers under this By-Law should it determine the activity is not “normal maintenance or improvement of land in agricultural use.”

3.2 Public Utilities. The application for and issuance of a by-law wetlands permit shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph, or other public services, provided that written notice has been given to the Commission before commencement of work, and provided that the work conforms to any performance standards and design specifications in regulations adopted by the Commission.

3.3 Emergency Projects. The application for and issuance of a by-law wetlands permit shall not be required for emergency projects necessary for the protection of the health and safety of the public.

- A. The project shall only be considered an emergency project under this by-law if: (1) the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; and (2) advanced notice, oral or written, has been given to the Commission before commencement of work or within twenty-four (24) hours after commencement; and (3) the Commission or its designee certifies the work as an emergency project; (4) be performed only for the time and place certified by the Commission for the limited purpose necessary to abate the emergency; (5) the project proponent must file, within twenty-one (21) days of commencement of an emergency project, a By-Law Wetlands Permit application with the Commission for review as provided by the By-Law.

- B. To further qualify as an emergency project, the work must: (I) be performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and (ii) the project proponent must file, within twenty-one (21) days of commencement of an emergency project, a by-law wetlands permit application with the Commission for review as provided by this by-law.
 - C. Upon failure to meet the above and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.
- 3.4 Mosquito Control Work. The provisions of this By-Law shall not apply to any mosquito control work done under the provisions of Mass. Gen. Laws, ch. 40 ss 5, clause (36) ir cg, 252,
- 3.5 No other Exceptions to By-Law. Other than as stated in this section, the exceptions provided in the Act shall not apply under this by-law.

4. DEFINITIONS

The following definitions shall apply in the interpretation and implementation of this by-law. Except as otherwise provided in this by-law or in regulations of the commission, the definitions of terms in this by-law shall be as set forth in the Wetlands Protection Act (Mass. Gen. Laws, ch. 131, ss40) and regulations (310 CMR 10.00).

- 4.1 Act. The term “Act” means the state Wetlands Protection Act (Mass. Gen. Laws, ch. 131, ss 40) and regulations (310 CMR 10.00).
- 4.2 Alter. The term “alter” shall include, without limitation, the following temporary or permanent activities when undertaken to, upon, within, or affecting wetland resource areas and buffer zones protected by this by-law; provided, however, that the term “alter” shall not apply to maintaining or replacing within the existing foot print, without enlargement of that footprint, structures and vegetation that legally exist at the time of the adoption of this by-law:
- Removing, excavating, or dredging of soil, sand, gravel or aggregate materials of any kind;
 - Changing the preexisting drainage and runoff characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics;
 - Draining or otherwise disturbing surface water levels or the water table;
 - Dumping, discharging, or filling with any material that would degrade water quality;
 - Placing fill or removing material that would alter elevation;
 - Driving piles and erecting or expanding buildings or structures of any kind;
 - Placing obstructions or object in water;
 - Destroying, including cutting, any vegetation within a wetlands resource area;
 - Changing temperature, biochemical oxygen demand, or other physical, biological, or chemical characteristics of any waters;
 - Conducting any activities, making changes, or performing work that may cause or tend to contribute to pollution of any body of water or groundwater;
 - Conducting incremental activities that have, or may have, a cumulative adverse impact on the resource areas protected by this by-law.
- 4.3. Commission. The term “Commission” shall mean the Conservation Commission of the Town of Billerica, established under the authority of Mass. Gen. Laws, ch 40, ss 8C, the members of which are appointed by the Board of Selectmen for terms of three years.
- 4.4. Person. The term “person” shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent such is subject to the Town By-Laws, administrative agency, public or quasi-public corporation or body, the town of

- Billerica, and any other legal entity. The term “person” shall also include the legal representatives, agents, or assigns of the above named entities and other legal entities.
- 4.5. Rare Species. The term “rare species” shall include, without limitation, all vertebrate and invertebrate animal and all plant species listed as endangered, threatened, or of special concern by the Massachusetts Division of fisheries and wildlife, regardless of whether the site in which they occur has been previously identified as a habitat by the Division.

5. BY-LAW RESOURCE AREAS AND PRESUMPTIONS

The provisions of this by-law apply to the following wetlands resource areas and presumptions. Except as otherwise provided in this by-law, the wetlands resource areas shall be as set forth in the Act.

- 5.1. Bank. A “bank” shall mean the land area which normally abuts and confines a water body; the lower boundary being the mean annual low flow level and the upper boundary being the first observable break in the slope or the mean annual high water line, whichever is higher.
- 5.2. Buffer Zone. A “buffer zone” shall mean that area of land extending 100 feet horizontally outward from the boundary of any wetlands resource area subject to protection under this by-law or the Act, provided, however, that there shall not be a 100-foot buffer zone to the wetland resource area known as the “riverfront area.” or from “lands subject to flooding (isolated or bordering)”. By regulation, the Commission may require within a buffer zone certain setbacks and/or an area of natural vegetation of sufficient width and vegetative community type to assure protection of the wetlands resource area and mitigation of proposed activities. Nothing herein shall preclude the Commission from establishing a no-alteration zone on a case-by-case basis.

(Amended: Art. 35 – AFTM 10-4-11)

- 5.3. Freshwater Vegetated Wetlands. A “vegetated wetlands” shall mean a freshwater wetlands that may either border on another water body or wetlands resource area or not be connected by surface water to any other water body or wetlands. A vegetated wetland is an area where the soils and vegetation meet the criteria of the Act. The types of freshwater vegetated wetlands are bogs, marshes, wet meadows, and swamps as those are defined in the Act.
- 5.4. Riverfront Area. A “riverfront area” shall mean that area of land situated between the mean annual high-water line of a river and a horizontal parallel line located two hundred feet from said mean annual high-water line. The 100-foot buffer zone is not applicable to the riverfront area; provided, however, that by regulation the Commission may require with the out riparian area a zone of natural vegetation of sufficient width and vegetative community type and/or setbacks to assure protection of the riverfront area and mitigation of proposed activities. Nothing herein shall preclude the Commission from establishing a no-alteration zone on a case-by-case basis.
- A. The riverfront area is presumed important to the protection of rivers, ponds, and lakes because activities undertaken in close proximity to these resource areas have a high likelihood of adverse impact upon the wetlands or other resources, either immediately as a consequence of construction or over time as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use include, without limitation, erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat.
- B. The Commission may therefore establish, by regulations, performance standards for protection of such lands including without limitation strips of continuous, undisturbed vegetative cover within the two hundred-foot area or other form of work-limit or setback to buildings, roads, landscaping and other features.
- C. In the review of riverfront areas, the Commission shall not issue any by-law wetlands permit allowing any activity unless the applicant, in addition to meeting the otherwise applicable requirements of this by-law, has proved by a preponderance of the evidence that (I) there is no practicable alternative to the

proposed project with less adverse effects and (ii) that such activities, including proposed mitigation measures, will have no significant adverse impact on the riverfront area or values protected by this by-law. The Commission shall regard as practicable an alternative that is reasonably available and capable of being done after taking into consideration the proposed property use, overall project costs, but the Commission shall not use such consideration as an overriding factor in making its decision.

- 5.5. Stream. A “stream” shall mean a body of running water, including brooks and creeks, that moves in a definite channel in the ground due to hydraulic gradient. A portion of a stream may flow through a culvert or beneath a bridge. Streams may be intermittent or perennial.
- A. An “intermittent stream” shall mean a body of running water that does not flow through out the entire year.
- B. A “perennial stream” shall mean a body of running water that flows throughout the year, except in periods of extended drought as such may be defined by the regulations of the Commission. A perennial stream is a river.

- 5.6 Lands Subject to Flooding (Isolated or Bordering). Isolated Land Subject to Flooding is an isolated depression or a closed basin which serves as a ponding area for run-off or high ground water which has risen above the ground surface. Bordering Land Subject to Flooding is an area which floods from a rise in a bordering waterway or water body. Such areas are likely to be significant to flood control and storm damage prevention. (Art. 35; AFTM 10-4-2011)

6. REQUEST FOR BY-LAW DETERMINATION OF APPLICABILITY AND RESOURCE DELINEATION CONFIRMATION; APPLICATION FOR BY-LAW WETLANDS PERMIT; FEES; CONSULTANTS

- 6.1 Request for By-Law Determination of Applicability. Any person desiring to know whether a proposed activity or an area is subject to this by-law may in writing request a determination from the Commission.
- 6.2 Request for Resource Delineation Confirmation. Any person desiring to know whether a delineation of a wetland resource area protected under this by-law and, if appropriate, the extent of the buffer zone to that wetlands resource area protected under this by-law may in writing request a confirmation from the Commission. Such a request for by-law confirmation shall include information and plans as are deem necessary by the Commission.
- 6.3 Application for By-Law Wetlands Permit. Written application for a by-law wetlands permit shall be filed with the Commission to perform activities affecting resource areas protected by this by-law.
- A. The application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the wetlands resource areas and buffer zones protected by this by-law. The Commission in an appropriate case may accept as the application and plans under this by-law any application and plans filed under the Act
- B. No activities shall commence without receiving and complying with wetlands permit issued pursuant to this by-law.
- 6.4 Filing Fee. At the time of a request for a by-law determination, request for a confirmation, or an application for a by-law wetlands permit, the applicant shall pay a filing fee as specified in regulations of the Commission. The regulations of the Commission need not set a by-law filing fee for every type of request or application and the regulations may provide for a waiver of the by-law filing fees so set. Town projects are exempt from filing fees under this Section. The by-law filing fee is in addition to that required by the Act and the filing fee shall be deposited in a revolving fund, separate

from the account established for filing fees paid under the Act, as such revolving fund may be established by Town Meeting vote.

- 6.5 Consultant Fee. Upon receipt of a request for a By-Law determination or confirmation or an application for a By-Law permit, or at any point during the hearing process, the Commission is authorized to require an applicant to pay a fee for the reasonable costs and expenses borne by the Commission for specific expert engineering and other consultant services deemed necessary by the Commission to come to a final decision on the request or application. The consultant shall be a qualified individual selected and approved by the Commission by Article XI of the General By-Laws of Billerica.
- A. The exercise of discretion by the Commission in making its determination to require the payment of a consultant fee shall be based upon its reasonable finding that additional information available only through outside consultants is necessary for the making of an objective decision.
 - B. The specific consultant services may include, but are not limited to performing or verifying the accuracy of resource area surveyed delineation; analyzing resource area functions and values, including wildlife habitat evaluations; performing hydrogeologic and drainage analysis; and researching environmental or land use law.
 - C. The Commission may require a wildlife habitat study of the project area, to be paid for by the applicant, whenever it deems appropriate, regardless of the type of resource area or the amount or type of alteration proposed. The decision shall be based upon the Commission's estimation of the importance of the habitat area considering, but not limited to, such factors as proximity to other areas suitable for wildlife, importance of wildlife corridors in the area, or possible presence of rare species in the area.
 - D. The consulting expert shall submit his or her bill for services rendered directly to the applicant and the applicant shall be responsible for making full payment of such bill directly to the consultant. Problems or disputes over payment arrangements between the consultant and the applicant shall be settled at a regularly scheduled meeting of the Commission by a majority vote of the Commission.

7. ADMINISTRATIVE HEARING PROCESS

7.1. Notice of Filing

- A. Abutters. A person filing an application for a determination, resource delineation, or wetlands permit under this by-law shall, at the same time, give written notice thereof, by certified mail (return receipt requested) or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 300 feet of the property line of the applicant, including any in another municipality or across a body of water.
 - (1) The notice to abutters shall have enclosed a copy of the application, with plans, or shall state where copies may be examined and obtained by abutters.
 - (2) When a person requesting a determination is other than the owner, the applicant shall send a copy of the request and plans to the owner.
 - (3) An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. The Commission shall not open a public hearing until such proof of notice is received by the Commission.
- B. Other Municipal Boards and Commissions. Any person filing an application for determination, confirmation of resource delineation, or wetlands permit pursuant to this by-law, shall provide a copy thereof at the same time, by certified mail (return receipt requested) or hand delivery, to those town departments specified

by the Commission as requiring notice. A copy shall be provided in the same manner to the conservation commission of the adjoining municipality, if the request or application pertains to property within 300 feet of that municipality.

- (1) An Affidavit of the person providing notice, with a copy of the notice mailed or delivered, shall be filed with the Commission.
- (2) The Commission shall not take final action until the boards and officials have had fourteen (14) days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing of the Commission, before final action.

- 7.2. Notice of Hearing. The Commission shall conduct a public hearing on any application for a determination, resource area delineation, or Wetlands Permit under this By-Law. The Commission shall give written notice, at the expense of the applicant, at least five business days prior to the hearing, in a newspaper of general circulation in the Town of Billerica.
- 7.3. Hearing Process. The Commission in an appropriate case may combine its hearing under this by-law with the hearing conducted under the Wetlands Protection Act.
- A. Commencement of Hearing. The Commission shall commence the public hearing within twenty-one (21) days from receipt of a completed application, unless an extension is authorized in writing by the applicant.
 - B. Continuance of Hearing. The Commission shall have authority to continue the hearing to a specific date announced at the hearing, for reasons stated at the hearing, which may include the need for additional information from the applicant or others deemed necessary by the Commission in its discretion, based on comments and recommendations of the boards and officials noted in Section 7.1.B of this by-law.
- 7.4. Issuance of Decision. The Commission in an appropriate case may combine the decision issued under this by-law with the Order of Conditions, Order of Resource Area Delineation, or Determination of Applicability issued under the Act. In all permit decisions, the Commission shall make written findings and reasons as provided in Section 7.4.B of this by-law
- A. Determination of Applicability or Resource Area Delineation. The Commission shall issue its determination of applicability or resource delineation decision in writing within twenty-one (21) days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.
 - B. By-Law Wetlands Permit. The applicant for a by-law wetlands permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the by-law permit application will not have significant or cumulative effects upon the resource area values protected by this by-law. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit. If the Commission, after a public hearing, determines that the activities that are subject to the by-law wetlands permit application or the land and water uses, which will result therefrom, are likely to have significant or cumulative effects upon the wetland resource area values protected by this by-law, the Commission shall deny a by-law wetlands permit for the activities requested or issue a by-law wetlands permit that protects the wetland resource area values enumerated in this by-law and those that may be found by the Commission.
 - (1) Where no conditions are adequate to protect those wetland resource values, the Commission shall deny a permit for failure to meet the requirements of this by-law. The Commission may also deny a permit for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance

- standards, and other requirements in the regulations of the Commission; or for failure to avoid or prevent significant or cumulative effects upon the resource area values protected by this by-law.
- (2) If it issues a by-law wetlands permit, the Commission shall impose conditions that the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.
- (a) In establishing those conditions, the commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected wetland resource areas and their buffer zones throughout the relevant watershed area, resulting from past activities, permitted and exempt, and foreseeable future activities.
- (b) To prevent wetlands loss, the Commission shall require applicants to avoid wetlands alteration wherever feasible; shall minimize wetlands alteration; and, where alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.

8. POST DECISION PROCESS

- 8.1 Recording in Registry of Deeds. No work proposed in any request or application shall be undertaken until the determination, confirmation of By-Law wetland resource area boundary, or By-Law wetlands permit issued by the Commission with respect to such work has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the commission that the document has been recorded.
- 8.2 Amendment, Revocation or Expiration of a Determination, Confirmation or Permit under the By-Law
- A. An amendment to a determination, confirmation or permit issued under this by-law shall be in accordance with the Act.
- B. A by-law determination or by-law wetland resource area boundary confirmation shall expire three (3) years from the date of issuance.
- C. A by-law wetlands permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission.
- (1) Any by-law wetlands permit may be renewed once for an additional one-year period, provided that a request for a renewal is received in writing by the Commission before expiration.
- (2) Notwithstanding the above, a by-law wetlands permit may identify requirements that shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place and shall apply to all owners of the land.
- D. For good cause the Commission may revoke any by-law determination, confirmation of by-law wetland resource area boundary, by-law wetlands permit, or other permit, order, determination, or other decision issued under this by-law after notice to the holder of the issued document, the public, abutters and certain town boards and a public hearing

8.3 Certificate of Compliance. Upon request by the landowner or holder of a by-law wetlands permit, the Commission may issue a certificate of compliance. The Commission shall record on the certificate all conditions that shall remain in effect. Said certificate shall be recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies.

9. APPEAL FROM DECISION OF CONSERVATION COMMISSION

A decision of the Commission may be appealed to the superior court in accordance with applicable law.

10. REGULATIONS PROMULGATION BY CONSERVATION COMMISSION

After public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this by-law, effective when voted by the Commission and filed with the Town Clerk. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this by-law. At a minimum, these regulations shall define essential terms in this by-law not inconsistent with the by-law, and procedures governing the amount and filing of fees and the deposit of such fees in a revolving fund as may be established by Town Meeting vote.

11. SECURITY

As part of a permit issued under this by-law, in addition to any security required by any other municipal or state board, agency, or official, the Commission may require that the performance and observance of the conditions imposed thereunder, including conditions requiring mitigation work, be secured wholly or in part by one or more of the methods described below;

11.1 Financial Assurance Mechanisms. By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of compliance for work performed pursuant to the permit.

11.2 Restrictions on Property. By accepting a conservation restriction, easement, or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of the Town of Billerica whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed. This method shall be used only with the consent of the applicant.

ARTICLE XXIII

It shall be unlawful for any person to make, continue to make, permit or cause to be made or continued, any loud, excessive, unnecessary or unusually loud noise or any noise which either annoys, disturbs, injures or endangers the comfort, repose, health, peace or safety of reasonable persons of normal sensitivities. Furthermore, it shall be unlawful for any person who has custody and control of the premises to allow or permit another person to make, continue or permit to be made or continued any loud, excessive, unnecessary or unusually loud noise or any noise which either annoys, disturbs, injures or endangers the comfort, repose, health, peace or safety of reasonable persons of normal sensitivities within the limits of the Town of Billerica.

23.2 Definitions

Except as may be specified herein, acoustical terminology used throughout this By-Law is that approved as American National Standard Acoustical Terminology [ANSI S1.1-1994] by the American National Standards Institute (ANSI). The following words, phrases and terms as used in this By-Law shall have the meanings as indicated below:

A. BACKGROUND SOUND LEVEL shall mean the sound level associated with a given environment, being a composite of sounds from all sources excluding the alleged offensive noise, at the location and approximate time at which a comparison with the alleged offensive noise is to be made.

B. CONSTRUCTION shall mean those activities requiring a building permit, and shall also include any site preparation, cemetery burial and caretaking operations, seismic surveys, grading, assembly, erection, substantial repair, alteration, or similar action, including demolition, for or of public or private rights-of-way, structures, utilities or similar property.

C. The abbreviation dBA shall mean the A-weighted sound pressure level expressed in decibels and referenced to 20 micropascals. The abbreviation dBC shall mean the C-weighted sound pressure level expressed in decibels and referenced to 20 micropascals.

D. EMERGENCY VEHICLE: shall mean any vehicle operated in an effort to protect, provide or restore public safety, including, but not limited to, ambulances, police vehicles and fire vehicles.

E. EMERGENCY WORK: shall mean any work performed in an effort to protect, provide or restore public safety, or work by private or public utilities when restoring utility service or any work performed for the purpose of preventing or alleviating the physical trauma or physical damage threatened or caused by an emergency – an occurrence or set of circumstances involving actual or imminent physical trauma or property damage.

F. ENFORCING PERSON: shall mean any police officer, building official or public health official of the Town or any other Town employee designated by the Town Manager for this purpose.

G. **IMPACT DEVICE:** shall mean a construction device in which or by which a hammer, meaning a moving mass of hard solid material, is mechanically by means of a working fluid or compressed air caused to repetitively impact upon and transmit kinetic energy to a tool. The tool may be included as a part of the device, as in the case of amoil on a paving breaker or the drill steel of a jackhammer, or it may be a mass to which the impact device is temporarily connected as in the case of a pile and pile driver. Examples of impact devices are pile drivers, paving breakers, power impact hammers, impact wrenches, riveters and stud drivers.

H. **INTRUDING NOISE:** shall mean the total sound level created, caused, maintained by, or originating from an alleged offensive source at a specified location while the alleged offensive source is in operation.

I. **PERSON:** shall mean a person, firm, association, co-partnership, joint venture, corporation or any entity recognized by applicable law, public or private in nature.

K. **SOUND LEVEL METER:** shall mean an instrument meeting American National Standard Institute's Standard S1.4-1983 for Type 1 or Type 2 sound level meters or an instrument and the associated recording and analyzing equipment which will provide equivalent data

23.3 **Designated Noise Zones.** The properties hereinafter described are hereby assigned to the following noise zones:

NOISE ZONE I: All properties utilized as residential uses in accordance with the Town of Billerica Zoning By-Laws. and the grounds of any school, hospital or similar health care institution, house of worship or library while the same is in use, and any Cemetery or Open Space.

NOISE ZONE II: All other property used in accordance with the Town’s Zoning By-Law.

23.4 **Exterior Noise Standards:** It shall be unlawful for any person at any location within the area of the Town to create any loud noise, or to allow the creation of any noise, on property owned, leased, occupied or otherwise controlled by such person, which causes the sound level when measured on complainant's property to exceed the greater of:

- A. The maximum allowable exterior sound level outlined in Table I; or
- B. Five dB over the background sound level.

Table 1. Maximum Allowable Exterior Sound Level		
Noise Level	Daytime level	Nighttime level
	7:00AM to 10:00 PM	10:00PM to 7:00AM
I	60 dBA	50 dBA
II	70 dBA	65 dBA

If the intruding noise source is continuous and cannot reasonably be discontinued or stopped for a time period whereby the background sound level can be determined, the measured sound level obtained while the source is in operation shall be compared directly to the maximum allowable exterior sound level outlined in Table I.

23.5 Construction Noise Standards

- A. Noise associated with construction is permitted between 7:00 AM and 6:00 PM on weekdays and Saturdays provided the sound level from:
 - 1. Non-impact devices does not exceed 70 dBA as measured over a time interval of 1 minute with the sound meter set to slow located on any other property, but at least 50 feet from the construction activity;
 - 2. Impact devices does not exceed 90 dBA as measured with a sound level meter set to slow response located on any other property, but at least 50 feet from the construction activity.
- B. Between the hours of 6:00 PM and 7:00 AM on weekdays and Saturday, and at any time on Sunday or a legal holiday, noise associated with construction, shall be limited by the standards of Section 23.4.

23.6 Maintenance Noise Standards

ARTICLE XXV

STORMWATER MANAGEMENT BY-LAW

DEFINITIONS:

- Alter:** Any activity, which will measurably change the ability of a ground surface area to absorb water or will change existing surface drainage. Alter may be similarly represented as “alteration of drainage characteristics,” and “conducting land disturbance activities.”
- Best Management Practice (BMP):** Structural and nonstructural techniques that are recognized to be effective and practical means to prevent and/or reduce increases in stormwater volumes and flows, reduce point source and nonpoint source pollution, and promote good stormwater quality and protection of the environment. “Structural” BMPs are devices that are engineered and constructed to provide permanent or temporary storage and treatment of stormwater runoff. “Nonstructural” BMPs use natural measures to reduce pollution levels, do not require extensive construction efforts, and/or promote pollutant reduction by eliminating the pollutant source. Nonstructural BMPs include managerial techniques that focus on the preservation and protection of natural features.
- Common Plan:** Any announcement or piece of documentation (including a sign, public notice or hearing, advertisement, drawing, ANR plan, or permit application, etc.) or physical demarcation (including boundary signs, lot stakes, surveyor marking, etc.) indicating imminent or future construction activities.
- Land Disturbance:** Any action that causes a change in the position, location, or arrangement of soil, sand, rock, gravel or similar earth material. See also ALTER.
- Massachusetts Stormwater Management Policy:** The Policy issued by the Department of Environmental Protection, and as amended from time to time, that coordinates the requirements prescribed by state regulations promulgated under the authority of the Massachusetts Wetlands Protection Act G.L. c. 131 § 40 and Massachusetts Clean Waters Act G.L. c. 21, §. 23-56. The Policy addresses stormwater impacts through implementation of performance standards to reduce or prevent pollutants from reaching water bodies and control the quantity of runoff from a site.
- Municipal Separate Storm Sewer System (MS4), or Municipal Storm Drain System, or Municipal Drainage System:** The system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, street, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man-made or altered drainage channel, reservoir, and other drainage structure that together comprise the storm drainage system owned or operated by the Town of Billerica.
- Stormwater Authority:** Board of Health or authorized agent(s), as defined in the Stormwater Management By-law. The Board of Health, or its agent(s), is responsible for coordinating the review, approval and permit process as defined in these Regulations authorized by the Stormwater Management By-law. Other Boards and/or departments may

participate in the review process as defined in the Stormwater Management By-law.

Stormwater Management: The use of structural or nonstructural practices that are designed to reduce stormwater runoff pollutant loads, discharge volumes, and/or peak flow discharge rates. Stormwater Management includes the use of structural, and nonstructural stormwater management practices.

Stormwater Management Permit: A permit issued by the Board of Health, after review of an application, plans, calculations, and other supporting documents, which show that the proposed project is designed to protect the environment of the Town from the deleterious affects of uncontrolled and untreated stormwater runoff.

Additional terms that apply to issuance of a Stormwater Management Permit established by this By-law shall be defined and included as part of the Regulations promulgated and, from time to time, amended under Section 2.2 of this By-law, a copy of which shall be available at the Board of Health and the office of the Town Clerk. Terms not defined in said Regulations or pertinent statutes shall be construed according to their customary and usual meaning unless the context indicates a special or technical meaning.

1. SCOPE AND APPLICABILITY

- 1.1 Unless exempt pursuant to Section 1.2 of this By-law, all activities under the jurisdiction of this By-law shall be required to obtain a Stormwater Management Permit from the Board of Health prior to beginning any site work. This By-law shall be applicable to all new development and redevelopment projects including:
- A. Any Subdivision as defined in the Massachusetts Subdivision Control Law (MGL, Chapter 41, Sections 81K – 81GG) requiring a Definitive Plan,
 - B. Any activity that results in a land disturbance greater than one acre within the Town of Billerica;
 - C. Any activity that results in a land disturbance of less than one acre if the project is part of a larger common plan of development that eventually will disturb more than one acre within the Town of Billerica; and
 - D. Any alteration, redevelopment, or land use conversion in an area with “higher potential pollutant loads” as described in Standard 5 of the Massachusetts Stormwater Management Policy, as it may be amended from time to time.

Plans that do not require approval under the Subdivision Control Law, hereafter referred to as “ANR lots”, and meet one or more of the applicability criteria above are subject to the provisions of this By-law and are not exempt from obtaining a Stormwater Management Permit.

- 1.2 Exemptions: No person who meets the applicability of this By-law shall alter land within the Town of Billerica without having obtained a **Stormwater Management Permit (SMP)** with the following exceptions:
- A. In the course of customary Cemetery management,
 - B. Maintenance of existing landscaping, gardens or lawn areas,
 - C. Normal maintenance and improvement of land in agricultural use as defined by the Wetlands Protection Act 310 CMR 10.04 and MGL Chapter 40A Section 3,
 - D. Emergency repairs to any stormwater management facility or practice, such that the original design location, size, and technology remain the same, that poses a threat to public health or safety, or as deemed necessary by the Board of Health.
- 1.3 Coordination with Other Town Permits.
- A. No Town Earth Removal Permit, Order of Conditions from the Conservation Commission, Building Permit, subdivision approval, special permit, variance or finding shall constitute compliance with this By-law. For a project or activity that meets the Scope and Applicability of this By-law, no work may commence until the developer submits a complete Stormwater Management Permit

application, the Board of Health issues a Stormwater Management Permit, and the developer certifies that all land clearing, construction, and development will be done pursuant to the approved Plans and Permit.

- B. This By-law is not intended to interfere with, abrogate, or annul any other By-law, rule or regulation, statute, or other provision of law. The requirements of this By-law shall be considered minimum requirements, and where any provision of this By-law imposes restrictions different from those imposed by any other By-law, rule or regulation, or other provision of law, whichever provisions are more restrictive or impose higher protective standards for human health or the environment shall take precedence.
- C. For projects within any resource area protected under law, including, but without limitation: the Billerica Wetlands Protection By-law, Massachusetts Wetlands Protection Act, the Massachusetts Rivers Act, the Massachusetts Watershed Protection Act, or the BMP design and selection criteria given in the most current Massachusetts Stormwater Management Policy, as amended, shall be considered the more restrictive or more protective of human health and the environment, and shall take precedence over the Billerica Stormwater Management By-law.

2. ADMINISTRATION

- 2.1 **Stormwater Authority.** The Board of Health is hereby designated as the Stormwater Authority. The Board of Health, or its agent, shall administer, implement and enforce this By-law. The Billerica Board of Health may appoint an Agent to issue Permits and sign Plans provided for in this By-law. The Board of Health may appoint another Town department, commission or board to act as its authorized Agent for site inspections and enforcement of this By-law.
- 2.2 **Stormwater Regulations.** The Board of Health may adopt, and periodically amend, rules and regulations relating to the terms, conditions, definitions, enforcement, fees (including application, clerical, inspection, and/or consultant fees), procedures and administration of this Stormwater Management By-law after conducting a public hearing to receive comments on any proposed revisions. Such hearing dates shall be advertised in a newspaper of general local circulation at least seven (7) days prior to the hearing date. After public notice and public hearing, the Board of Health may promulgate rules and regulations to effectuate the purposes of this By-law. Failure of the Board of Health to promulgate such rules and regulations, or a legal declaration of their invalidity by a court, shall not act to suspend or invalidate the effect of this By-law.
- 2.3 **Stormwater Management Manual:** The Board of Health will utilize the Massachusetts Stormwater Management Policy and Handbooks, as amended from time to time, for criteria and information including specifications and standards for the execution of the provisions of this By-law. These include a list of acceptable stormwater treatment practices, with specific design criteria for each. Unless specifically altered in this Stormwater Management By-law, stormwater management practices that are designed, constructed, and maintained in accordance with the Massachusetts Stormwater Management Handbooks' design and sizing criteria may be presumed by the Board of Health to be protective of Massachusetts water quality standards.
- 2.4 **Appeals of Action by the Board of Health.** A decision of the Board of Health shall be final. Further relief of a decision by the Board of Health made under this By-law shall be reviewable in the Superior Court in an action filed within 60 days thereof, in accordance with M.G.L. Chapter 249 § 4.

3. PERMIT PROCEDURES

Permit procedures and requirements, including permit submittals, right-of-entry, fee schedule, and public hearing process, shall be defined and included as part of the Regulations promulgated under Section 2.2 of this By-law.

4. PERFORMANCE STANDARDS

Criteria for erosion and sediment control and post-construction stormwater management, including stormwater performance standards, shall be defined and included as part of the Regulations promulgated under Section 2.2 of this By-law.

5. WAIVERS

5.1 The Board of Health may, at its discretion and after due consideration and consultation with the Conservation Commission, Planning Board and DPW Director, decide to waive and exempt strict compliance with any requirement of this Town of Billerica Stormwater Management By-law or the Regulations promulgated hereunder, where it makes a written finding that such action is:

- A. Allowed by federal, state and local statutes and/or regulations;
- B. In the public interest; and
- C. Consistent with the purpose and intent of the Town of Billerica Stormwater Management By-law and its Regulations.

5.2 Criteria for granting a waiver shall be defined and included as part of the Regulations promulgated under Section 2.2 of this By-law.

5.3 Any waiver requests shall be discussed and voted on at the public hearing for the project.

6. ENFORCEMENT

The Board of Health, or its authorized agent, shall enforce this By-law and resulting regulations, orders, violation notices, and enforcement orders, and may pursue all criminal and civil remedies, including injunctive relief and monetary damages and costs of litigation and attorney fees, for such violations and for abatement and mitigation and compliance actions taken by the Board of Health. As an alternative to criminal prosecution or civil action, the Board of Health may elect to utilize the non-criminal disposition procedure set forth in Chapter 1, Section 19 of the Board of Health Regulations, and General By-laws Article XIV. To the extent permitted by state law, or if authorized by the owner or other party in control of the property, the Board of Health's agents, officers, and employees may enter upon privately owned property for the purpose of performing their duties under this By-law and may make or cause to be made such examinations, surveys or sampling as the Board of Health deems reasonably necessary to determine compliance with a permit issued under this By-law. Enforcement shall be further defined and included as part of the Regulations promulgated under Section 2.2 of this By-law.

SEVERABILITY

It is hereby declared that sections, paragraphs, sentences, clauses and phrases of these By-Laws are severable and if any phrase, clause, sentence, paragraph or section of these By-Laws shall be declared unconstitutional or otherwise invalid by the valid judgment of a court of competent jurisdiction such unconstitutionality or invalidity shall not effect any of the remaining phrases, clauses, sentences, paragraphs and sections of these By-Laws.
