Re: East Billerica Sewer Extension, Contract 34B
Needs Area 1
Sewer Availability

Dear Property Owner:

Sewer main construction associated with the above referenced project is nearly complete, and will be available for connection by homeowners in accordance with the following schedule by street:

July 17, 2015

Gray Street (bridge to Tewksbury T.L.), Patten Road, Senna Terrace, West Running Brook Road

September 1, 2015

Andover Road, Belmont Road, Captain Gookin Avenue, Carley Way, Demolay Court, Emerson Road, Georgiana Road, Governor Carver Road, Governor Fuller Road, Governor Peabody Road, Gray Street (Salem Road to bridge), Harvard Road, Jamieson Way, Kara Lane, Ketchen Avenue, Ross Road, Salem Road, Stafford Lane, Staples Street, Strawberry Lane, Tow Path Drive

House service connections must be made by an approved, licensed, and bonded contractor. A list of approved contractors is available online at the Town's website (www.town.billerica.ma.us) under *Public Works*. Sewer Permits for house service connections may be obtained by an approved contractor for a fee of seventy-five (\$75.00) dollars due by check payable to the Town of Billerica at the time of permit application.

Per local by-law, Article VIII Section 2, homeowners have one (1) year from the date of availability to connect to Town sewer.

All building sanitary sewer lines shall discharge to the proposed sewer service connection. All septic systems shall be abandoned following connection to the municipal sanitary sewer system. Any further use of the septic system is prohibited (i.e. no separate septic systems serving kitchens and laundries) pursuant to the State Environmental Code, Title 5. Connection of a source of stormwater to the sanitary sewer is considered an illicit connection and is not allowed (types of illicit connections include sump pumps, roof drains, or foundation drains).

Property Owner
